

From the **Immunization Action Coalition**

Vaccinating Adults: A Step-by-Step Guide

This comprehensive, easy-to-use “how-to” guide for vaccinating adults provides:

- ▶ **Practical steps to help you implement or enhance adult immunization services in your healthcare setting, including**
 - setting up for vaccination services
 - storing and handling vaccines
 - deciding which people should receive which vaccines
 - administering vaccines
 - documenting vaccinations (including legal issues)
 - understanding financial considerations and billing information
- ▶ **Hundreds of web addresses and references to help you stay up to date**

The development of this guide was supported by the National Vaccine Program Office (NVPO) and the Centers for Disease Control and Prevention (CDC). Expert staff from NVPO and CDC provided early technical review of the content.
